

# AMO Global Small-Mid Cap Equity Quality Growth Portfolio Class IIA USD Dist

## 30 April 2026 Factsheet

### Investment Objective

AMO Global Small-Mid Cap Equity Quality Growth Portfolio (the sub-fund) aims to generate long-term capital appreciation by investing in small-mid cap equities listed globally through a high-conviction and benchmark-agnostic approach.

### Investment Policy

The sub-fund seeks "high-quality" companies with differentiated source of growth as well as resilience by evaluating:

1. The company's value proposition to customers
2. Whether the business model is best of breed
3. Whether it has differentiated competitive advantages
4. A long-term oriented corporate strategy

### Key Risks

- Equity market risk - share prices of Japanese companies can be volatile and may decline sharply.
- Concentration risk - the portfolio holds a limited number of securities and sector weights may be high, increasing sensitivity to single-stock or sector events.
- Currency risk - although the share class is EUR-hedged, imperfect hedging can expose investors to residual JPY/EUR fluctuations.
- Liquidity risk - some mid- and small-cap holdings may trade on limited volumes, which can delay or increase the cost of transactions.
