AMO Japan Impact Equity Portfolio (the "Sub-Fund")

Class P EUR-Hedged ACC (LU2039665638) (the "Share Class")

A Sub-Fund of AMO UCITS Fund (the "Fund")

Management Company: Carne Global Fund Managers (Luxembourg) S.A.

Objectives and Investment Policy

Objective

The sub-fund aims to generate stable returns in the long term by investing in high-conviction Japanese equities identified through bottom up research, which contribute to having a positive impact on social issues and challenges.

Principal Investment Strategy

The strategy of the Sub-Fund is benchmark agnostic. The Sub-Fund is actively managed and invests at least 80% of its net asset in the stocks listed in Japan. The Sub-Fund invests in Japanese companies which provide solutions to core social issues and challenges through their businesses. The core social issues the Investment Manager focuses on include climate change, water resources, ecology consumption, good health / aging, poverty / disparity reduction, safety and waste.

Investment Horizon

The Sub-Fund is suitable for investors who seek capital growth over the long-term and who can afford to set aside the capital invested for at least 3 to 5 years.

Distribution Policy

This Class is a Capitalisation Share Class. Capitalisation Share Classes retain and reinvest all net income. In this regard the income is retained in the net asset value and reflected in the net asset value per share of the relevant class.

Dealing Frequency

You may sell shares each day that is a bank business day in Luxembourg, Tokyo and London (except Good Friday and 24 December of each year).

Risk and Reward Profile

This indicator above is based on simulated historical data and may not be a reliable indication of the future risk profile of the Sub-Fund. The risk category shown is not guaranteed and may change over time. The lowest category does not mean a risk free investment.

This Sub-Fund is in risk category 6 because of the high range and frequency of price movements (volatility) of the underlying investments in which the Sub-Fund invests.

The Sub-Fund may be subject to risks which are not included in the calculation of the risk-reward indicator associated with the following:

Equity Risk: The Sub-Fund invests in shares of companies, and the value of these shares can be negatively affected by changes in the company, its industry or the economy in which it operates.

Investments in Smaller Company shares: The Sub-Fund buys shares in smaller companies. It may be difficult to sell these shares, in which case the Sub-Fund may not be able to minimise a loss on such shares.

Environmental, Social and Governance Investing Risk:

The Sub-Fund incorporates ESG criteria into its investment strategy. This could cause the Sub-Fund to avoid or sell stocks that otherwise meet the financial criteria in the Fund's investment policy.

Country Risk: This Sub-Fund invests primarily in Japan, which means that it is more sensitive to local economic, market, political or regulatory events in Japan, and will be more affected by these events than other Funds that invest in a broader range of regions.

Liquidity Risk: A Sub-Fund may encounter difficulties to pay repurchase proceeds within the time period stated in the prospectus as a consequence of unusual market conditions or unusually high volume of repurchase requests.

Company Specific Risk: Any change to the business performance, capital structure, management or nature of business of a specific Company may negatively affect the valuation of the Sub-Fund.

The value of equities and equity-related securities can be affected by daily stock market movements. Other influential factors include political, economic news, company earnings and significant corporate events.

For more information on these and other risks see the section "Risk Considerations" in the Prospectus.

Charges

The charges you pay are used to pay the costs of running the Sub-Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

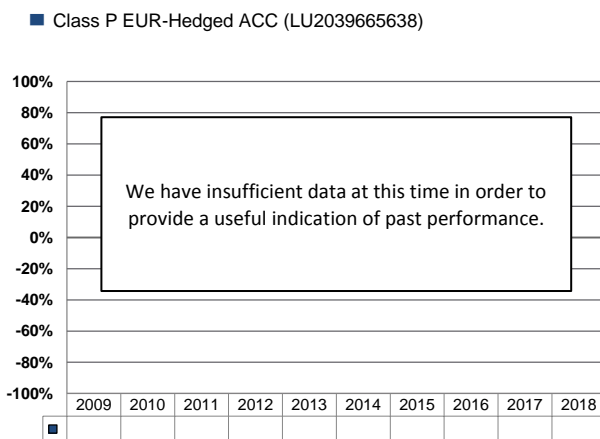

One-off charges taken before or after you invest	
Entry charge	5.00%
Exit charge	None
Subscription fee/Entry fee is up to 5.00% of the amount subscribed. This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investment are paid out. A dilution levy of up to 0.30% of the subscription or redemption amount may be charged if, on any Valuation Day, subscription or redemption requests received exceed 10% of the net asset value of the Sub-Fund.	
Charges taken from the Sub-Fund over a financial period	
Ongoing charges	1.57 %
Charges taken from the Sub-Fund under certain specific conditions	
Performance fee	None

The ongoing charges figure shown here is an estimate of the charges as the Share Class has not been priced for a full financial year twelve months period.

The Fund's annual report for each financial year will include details on the exact charges made. The amount charged may vary from year to year.

More information about charges can be found in the "Fees and Expenses" section of the Fund's Prospectus.

Past Performance
